REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: **the specific limitation of** "an intermediate layer of a fiber fleece, wherein the upper and lower covering layers of a textile glass fabric (6,8) have a higher tensile strength than the intermediate layer" in the combination as claimed in **claims 1,11**, are not anticipated or made obvious by the prior art in the examiner's opinion. **For example**, Akita et al. (5,431,596) disclose a surface grinding wheel comprising a supporting disk (20) and abrasive laminas (30) fixed to the supporting disk, the supporting disk comprising a glass-fiber reinforced phenolic resin body (21), which includes layer of a woven fabric made of glass fiber. **However**, the art of record considered as a whole, alone or in combination fails to provide or suggest "an intermediate layer of a fiber fleece, wherein the upper and lower covering layers of a textile glass fabric have a higher tensile strength than the intermediate layer".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
